# ALL-IN-ONE POTS ALTERNATIVE...

Safeguard clients by transitioning their business-critical POTS lines now. Clients keep their existing devices, remain compliant and SAVE money.

*The ALL-IN-ONE POTS ALTERNATIVE is an ideal copper phone line replacement for ACCESS, ALARM PANEL, TRANSACTION, ESSENTIAL PHONE, FAX MACHINE, and SCADA DEVICE applications.*

- Tom Turpin, CEO EnTelegent Solutions

**PROVEN, MANAGED  
& MONITORED NETWORK  
24/7/365**

**DUAL MICRO-SIM  
FAILOVER**

**8 HOUR BATTERY BACK-UP**

**QUICK & EASY MIGRATION**

**FULLY-COMPLIANT**

## REDUNDANCY OPTIONS

The ALL-IN-ONE POTS ALTERNATIVE offers redundancy options by leveraging both existing internet structure as well as a 4G LTE wireless connection (primary or backup) to ensure service reliability for clients' critical business communication requirements.

## SMS & EMAIL ALERTS

The ALL-IN-ONE POTS ALTERNATIVE allows clients to choose which type of notification is generated for each event, with the ability to add multiple recipients for each notification type. Event types include: Device In-Service, Device Out-of-Service, Battery Activated, and Battery Low.

## PEACE-OF-MIND COMPLIANCE

The ALL-IN-ONE POTS ALTERNATIVE is compliant with FCC Title 47m Part 15, ASME A17.1B Standards, NFPA 72®, MFVN, HIPAA, PCI, UL 864, UL 2054, UL 62368-1, and UN 38.3. In regard to PCI and HIPAA, encrypted end-to-end voice packets are not stored so there is no visibility into what is being transmitted.
