Robotics Manufacturer Requires Wireless Management Solutions

01

Challenge

A global robotics manufacturer needed to migrate from an existing provider due to network retirement and wanted to outsource the management of 200+ corporate smartphones.

02

Solution

- EnTelegent's expert, dedicated staff guided the evaluation of carrier offers for migration and cost savings.
- EnTelegent provided meticulous support for migration with no impact on Client operations.
- EnTelegent took over end-user mobile device support for activations, deactivations, issue resolution, and more.

03

Result

- The Client saved more than 25% versus baseline cost, with the potential for ongoing savings and service optimization.
- EnTelegent Solutions' management of end-user support freed up the Client's internal resources for more pressing strategic initiatives.

04

Feedback

"The money spent with EnTelegent has been a great investment. They have delivered savings and reduced internal staffing support needs dramatically."
-IT Manager

Reduce Wireless Expenses by up to 25% and Free Up Internal Resources with EnTelegent Solutions.
